Explanation of status codes: G = granted RET = returned
 D = dismissed KIL = killed

NOTE: Every attempt has been made to make this disposal list accurate;
however, it is provided for informational purposes and does not
constitute an official Commission database.

Southern Minnesota Broadcasting Company was listed incorrectly on PN 1766 under the wrong file number of 941011MI. The correct file number should be 941011NI.

File number 941209MA, Tichenor License Corporation, was listed incorrectly on P 1775 with the wrong frequency of 947.0. The correct frequency should be 948.0.

File number 710392, Chevron USA Inc., was listed incorrectly on PN 1780 with the wrong latitude of 29 21 31. The correct coordinates should be 29 21 30.

File number 711569, Northeast Utilities Service Company, was listed incorrectly on PN 1784 with the wrong frequency of 956.66875. The correct frequency should be 952.66875.

WNTM212

Special Temporary Authority
FCC File No. 789096
OFS Station WNTM212

Liberty Cable Co., Inc. ("Liberty") respectfully requests an extension of the special temporary authority it was granted pursuant to Section 94.43 of the Commission's Rules to operate an 18 GHz operational-fixed microwave service ("OFS") station at 205 East 64th Street (Bristol Plaza), NY, NY. The special temporary authority the Commission granted Liberty to operate this station, as modified, expires on September 28, 1994, and the underlying application still has not been granted. Given the extraordinary circumstances regarding the need for service, any delay in the institution of temporary operation would seriously prejudice the public interest.

Pursuant to Section 94.43(c) of the Commission's Rules, the following is submitted:

1. Name, Address and Citizenship of Applicant 96-41

Liberty Cable Co., Inc.
30 Rockefeller Plaza
Suite 3026
New York, NY 10020

New York Corporation

Presented by

Liberty / Bureau

2. Need for Special Action

Reporter J

1-10-97

On October 30, 1992 (File No. 789096), January 8, 1993 (File No. 790541) and April 1, 1993 (File No. 792858), Liberty filed applications to modify its 18 GHz station at Bristol Plaza. All of the file numbers were consolidated into File No. 789096 last October. Despite the fact that this consolidated application has been pending for at least one year, the Commission still has not granted the application. Liberty Cable has already begun providing microwave service to the buildings served by the microwave paths added in the aforementioned application. Extension of the STA is necessary in order to continue service until the application is granted. Based on the foregoing, Liberty submits that

extension of the special temporary authority requested herein is in the public interest. Liberty seeks extension of the Sta for full operational authority.

3. Type of Operation

Fixed transmission of video and audio signals in the 18 GHz band.

4. Purpose of Operation

The equipment will be used to distribute application's own products or services, including video entertainment programming, to private cable buildings on frequencies in the 18, 142-18, 580 MHz bank.

5. Time and Date of Operation Desired

Liberty requests authority for twenty-four (24) hour operation pending action on the application for license and requests that such authority begin on the tenth day following the filing of this request for special temporary authority.

6-12. Technical Information

Liberty will operate the station in conformance with the technical specifications outlined in its pending applications, copies of which are attached.

Liberty certifies that no party to the applications is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Action of 1988, codified at 21 U.S.C. Section 862 (formerly codified at Section 851a).

Please address all correspondence regarding this matter to Liberty's counsel, Michael J. Lehmkuhl, Esq. Pepper & Corazzini, 1776 K Street, N.W. Suite 200, Washington, D. C. 20006 as well as the undersigned.

Respectfully submitted,

Behrooz Nourain
Director of Engineering
